

CDDF would like to thank you for the trust and support given this year!
We look forward to another fruitful year of progress and accomplishments in the treatment of cancers.

In 2018, CDDF will continue to encourage early dialogue between all stakeholders to improve the efficiency of cancer drug development.

Our priority for next year is to achieve valuable input on topics such as pediatric oncology, clinical trial design, challenges of horizontal drug development, rare cancers, patients' reported outcomes, access to oncology drugs in Europe and pricing of new medicines.
