◎ WHAT IS THE CDDF

The **Cancer Drug Development Forum (CDDF)** is a **non-profit organisation** registered in **Belgium** that provides a **neutral platform** to stimulate **interaction between stakeholders** involved in **cancer drug development**.

◎ OUR MISSION

The CDDF's mission is to **facilitate collaboration between stakeholders**, to **increase efficiency in cancer drug development** and **accelerate the delivery of effective oncology treatment** to patients.

◎ HOW WE ADVANCE OUR MISSION

- ▶ The CDDF provides a **non-competitive, non-commercial platform** for **multi-stakeholder discussions** and **collaboration**
- ▶ The CDDF **brings together all actors** in the oncology community such as **academia**, the **healthcare industry**, **regulatory authorities**, **HTAs**, **policymakers** and **patient advocacy groups**
- ▶ The CDDF **stimulates advancement and innovation** in the field through **scientific debate** and **open discussion**

INITIATIVES

For many years, the Cancer Drug Development Forum (CDDF) has stimulated discussions to **accelerate effective drug development** in oncology treatment and shorten time to market, and time to patient access.

The CDDF offers workshops, conferences and webinars that bring stakeholders involved in cancer drug development into a **productive dialogue in a neutral, non-competitive space**.

The association drives multiple activities and initiatives in **close contact with regulators** from both the European Medicines Agency (EMA) and the US Food and Drug Administration (FDA) and national regulatory agencies, **HTAs, academic researchers** from around the globe, **healthcare companies**, and **patient advocates**.

FACILITATE. DEBATE. ACTIVATE. INNOVATE.

The Cancer Drug Development Forum (CDDF) **Annual Conference** is a unique meeting which facilitates open, meaningful dialogue. This multi-stakeholder, interactive three-day gathering offers plenary lectures with moderated discussions, including case studies and networking opportunities.

The agile, responsive nature of the CDDF platform allows **programs to be quickly initiated or adapted to reflect current and pressing issues**. The CDDF has also clearly proved to be a **visionary force within the cancer drug development field** addressing topics such as immuno-oncology, real-world data in cancer drug development, histology independent drug development and MRT & ctDNA in oncology, diversity in oncology clinical trials and the combination of immunotherapy and radiotherapy.

The CDDF continues to **pioneer progress in cancer drug treatments** through workshops and webinars exploring topics affecting the future of cancer care, such as real-world evidence, decentralised care and trials, drug and biomarker combinations, clinical research in Central and Eastern Europe and innovation in rare cancers.

The association also publishes **executive summaries, white papers and meeting reports** from workshops discussions, conference presentations and lecture briefings in order **to increase knowledge of the challenges and opportunities in cancer drug development**.

CDDF LEADERSHIP

The CDDF is governed by a rotating board of directors dedicated to the development of cancer drugs, representing a range of perspectives within the drug development process.

These distinguished academics are experienced pre-clinical and clinical investigators, medical oncologists, statistician, regulatory scientists, and pharmacists who have experience working within regulatory agencies, the pharmaceutical industry and patient advocacy.

The chairperson and directors are elected for a period of three years.

CDDF INDUSTRY MEMBERS PLATFORM

WHAT IS THE CDDF INDUSTRY MEMBERS' PLATFORM?

The CDDF Industry Members' Platform is composed of large and SME members from the healthcare industry who support the CDDF in its mission to establish a neutral space for stakeholders to facilitate discussion on innovative drug development in oncology.

The Industry Members' Platform acts as an advisory body within the CDDF. It supports the association in compliance with all relevant regulations in a manner consistent with the non-competitive, non-commercial platform that the CDDF offers to all stakeholders.

WHY JOIN THE CDDF INDUSTRY MEMBERS' PLATFORM?

Stimulate advancement in oncology treatment and delivery

Identify and overcome challenges in the development of cancer drugs

Improve product time to market for new treatments

CONTRIBUTE TO THE **DEVELOPMENT OF CANCER DRUGS AND TREATMENTS**

BECOME A MEMBER OF THE CDDF

INDUSTRY MEMBER BENEFITS

1

Unique Platform for Multi-Stakeholder Discussions

Access to the CDDF Industry Members' Platform to join members in addressing challenges in cancer drug development from a multi-stakeholder perspective

2

Complimentary Registration

Complimentary registration for in-person participants at every CDDF hybrid event (*one for small businesses, two for medium-sized enterprises and four for large healthcare companies*).

3

Livestream Access

Livestream access to all CDDF conferences, workshops and webinars.

4

Early Access to Digital Content

Early access to digital content from the CDDF's conference, workshops and webinars before public release.
